**Subject:** Ring's Partnership With Tampa Police Leads to Arrest

Hi Alex,

Thanks to information gathered from the Neighbors App by Ring and the Neighbors Portal, The Tampa Police Department has arrested a suspect involved in a local grand theft case. Click here to watch the full story on WTFS or scroll down for a quick recap.

[Tampa Police Credit App for Helping Catch Serial Porch Pirate](#)

After a package was stolen from his porch, Chris, a doctor from Tampa, shared a video of the incident on the Neighbors app by Ring. This helped police realize that the suspect was involved in multiple cases throughout the community.

"Many of them had the same exact story to tell," said Tampa Police spokesman Steve Hegarty. "We realized, you know what, that's the guy in those other videos."

According to the Tampa Police Department, the video helped identify the suspect as Santiago Rodriguez of Tampa, who was later arrested on charges of grand theft.

"This is a classic example of law enforcement working closely with the public to make the city safer," said Tampa Police Department Chief Brian Dugan. "The Neighbors App makes it easier for residents to look out for one another in their own communities and for law enforcement to quickly identify and apprehend criminals."

With the help of the Neighbors App and their community, Chris and police were able to make their neighborhood safer for everyone. Thanks to real-time crime alerts and diligent teamwork among the community and police, Chris's neighborhood has one less criminal on the street.

**Cc:** Smith, Vincent ; Pegues, Michael  
**Subject:** Re: Aurora Shape Files

Thank you Chief Ziman.

Hi Vince, In preparing Portal for Aurora PD, we require a shape file to define your jurisdiction. You can include or exclude areas of the city served by other agencies (ie; Kane County Sheriff's Office). For excluded area's, you will still be able to see video posts, comments and be able to engage with Neighbors. Video requests however are limited to your jurisdiction as defined by the shape file.

We would like you to provide the shape file in one of three formats:

1. ESRI Shapefile in EPSG:4326 - WGS84 format
2. GEOJSON
3. KML file

I hope this makes sense. If not, feel free to call anytime at [REDACTED] and I will be happy to discuss.

Regards, Ray

Chief Ziman, In advance of your onboarding next week, Ring will create your portal access using "shape files" provided by Aurora PD. If you would point me in the right direction on who I can get those from (usually someone in IT), I would be happy to reach them directly.

Looking forward to seeing you next week, onboarding APD and working together to keep Aurora neighborhoods safe.

Thanks and Best Regards,

Ray

We may be a neighborhood security company, but to us, your online security is just as important. Here are some best practices to help your Ring account stay secure.

# Enable two-factor authentication.

To add an extra layer of security, enable two-factor authorization in the Ring app, which helps secures your account with a text verification code to your mobile phone, in addition to your password, each time you log in.

**Get Started**

# Shared Users, not passwords.

You should never provide your login information to others. If you want to share access to your Ring devices with others, simply add them as a Shared User from the Device Dashboard.

## Best practices for passwords.

### **Use letters, numbers and symbols.**

To create a strong password, use words you won't find in the dictionary, alternating numbers, letters – both upper and lowercase – and unique symbols.

## **Never recycle old passwords.**

Make a habit of using different passwords for all your applications and profiles. That way, if one account is compromised, your other accounts are still safe.

## **Change your passwords often.**

It's recommended to change your password every 6 months or less. If you don't remember the last time you changed your Ring login credentials, it's probably time.
